

## ROBERT DOISNEAU

19.10.2017 > 04.02.2018

Unprecedented in Belgium, the retrospective exhibition dedicated to the famous French photographer Robert Doisneau is a must.

The Museum of Ixelles and the Robert Doisneau Studio present the opportunity to reconnect with everyday life in all its candour, malice and beauty through the artist's most famous vintage photographs as well as those less known. As a committed artist and visceral humanist, Robert Doisneau inhabits a singular universe offering a poetic and topical viewpoint that remains true today.
